Television Inequality: Consciousness ⇔ $G_{\text{arousal}} \cdot \sum \Gamma_i \cdot Q_{\text{PFC}} > \theta$
(fixed $Q_{\text{PFC}} = 0.7$)
$\theta = 0.5$ (consciousness boundary)
UNCONSCIOUS
Deep sleep
(low arousal)
Light
sedation
Awake
(alert)
Drowsy
General
anesthesia
Occipital
trauma
$\sum \Gamma_i$ (total sensory input)
G_{arousal} (reticular activation)
$G_{\text{arousal}} \cdot \sum \Gamma_i \cdot Q_{\text{PFC}}$
